Maxim Brna

TECHNICAL ARTIST | 3D ARTIST | UNREAL ENGINE

Piešťany, Slovakia | +421 907 435 806 | maxim.brnco@icloud.com

Portfolio: brna-portfolio.vercel.app

WORK EXPERIENCE

3D / Technical Artist, Unreal Engine (Part-Time) | *2025*
Incidental Minds | Bratislava, Slovakia
- 3D environment modelling
- Development of procedural tools and shaders
- Collaboration with Artists and Programmers on troubleshooting and optimization in Unreal Engine 5

TECHNICAL SKILLS

Unreal Engine 5
Blueprints, Shaders, Niagara, PCG, Nanite & Lumen optimizations, Control Rig, Editor Utility Scripting
Blender
Hard-Surface modelling, Game-ready asset optimization, UV unwrapping
Adobe Substance Painter
PBR texturing, Procedural masks for in-engine use
Programming
C++ **|** Object-oriented programming, OpenGL, SDL 3
Python **|** Unreal Engine API scripting

PERSONAL PROJECTS

Modular Medieval Kit | *3D Modelling / Technical Art*
Modular architectural asset kit for game development with procedural and hand-painted shaders. Optimized for real-time use in Unreal Engine 5 with nanite.
UE5 Batch Editing Plugin | *Technical Art*
Editor Utility Widget for batch asset-property editing, material-instance creation and assignment, validation checks, and LOD/collision generation.
Echoes of War | *Game Development*
Serious Game about PTSD developed as a vertical slice for my Bachelor's thesis in Unreal Engine 5.

EDUCATION

Master of Science (MSc), Game Studies and Engineering | *2025–Present*
Alpen-Adria University Klagenfurt | Klagenfurt, Austria
Related courses: Advanced Topics in Game Research and Engineering, Advanced Programming in C++, Introduction to Computer Graphics
Bachelor (Bc.), Theory of Digital Games | *2022–2025*
University of Ss. Cyril and Methodius in Trnava, Faculty of Mass Media Communication | Trnava, Slovakia
Related courses: Hard-surface Asset Design, Game Environment Design, Game Jams
Joint Study Mobility, Computing | *2026–Present*
Newcastle University | Newcastle upon Tyne, United Kingdom
Related courses: Game Design, Game Technologies & Simulations, Algorithm Design & Analysis
Erasmus+ Mobility, Interactive Digital Design | *2024*
University of the National Education Commission | Kraków, Poland
